

Sign Base

The RubberForm Sign Base lets your customers, employees and visitors know you not only care about their safety, but also the environment. Our Sign Base is made in the USA from 100% post consumer recycled tire rubber. Combined with our recycled aluminum traffic signs they make an excellent choice for Green or LEED certified building projects.

RubberForm's attractive and durable sign base is ideal for parking lots, parking garages, crosswalks, schools, shopping malls, grocery stores, plazas, universities, hospitals, airports, construction sites, government facilities and many more. Use it anywhere portable or a semi-permanent signage is needed. Aerodynamic and heavy enough to stay upright, yet agile enough to be tipped and rolled to another location.

Features

- Enhances safety and minimizes liability
- Easy to install, easy to move for snow removal, maintenance or storage - just tip and roll
- Supports signs up to 24 inch diameter
- Resistant to extreme temperature variations, UV light, oils, moisture and damage
- All-weather easy maintenance: will not rust, chip, crack, crumble, corrode or need repainting
- Environmentally friendly: Made in the USA from durable recycled tire rubber
- Mini Mover also available
