

RUBBERFORM[®]
RECYCLED PRODUCTS, LLC

Speed Humps 18" - 36"

The RubberForm RK Speed Humps and Mini Humps control traffic and reduce vehicle speeds to 20 mph. Made from 100% recycled tire rubber, our high-traction speed humps are highly visible and extremely durable.

The RubberForm RK Series Speed Humps modular system allows the formation of various lengths to meet desired speed reductions, location and specifications requirements. The most common length is 6ft. This particular length has minimal, if any, affect on Fire, Rescue or Emergency Service Vehicles response time as they have a wider wheel track versus other vehicles.

Another major advantage with the RK Series Speed Humps is that our End Caps, which complete the desired length, are tapered and contoured to not only give the finished installation a great appearance, but more importantly, to minimize any pedestrian trip hazard and to allow vehicle tires to maintain their straight direction without a "drop-off" which could jerk the steering and potentially cause the driver to momentarily loose control of their vehicle.

Wherever Speed Humps are installed, further successful acceptance with Fire Departments, municipalities, schools, residents, merchants, etc., will occur when installing out End Caps and in keeping this 6ft length in mind.

Features:

- 100% high-quality recycled rubber
- Permanent or Temporary speed zone
- Extremely durable: tough enough for heavy traffic impacts
- Resistant to temperature variations, UV light, oils /fuels, salts, moisture and damage- without tearing, chipping, cracking or crumbling
- Manageable size and weight
- Embedded reflective material increases visibility and safety, day or night
- Target slow down speed from 15 to 20 mph or below
- Flexible: conforms to road curvature and any asphalt or concrete surface
- Easy, one-person installation with basic tools
- Made in the U.S.A.

**100% Recycled
Material**

UV Resistant

**Made in the
USA**

**LEED
Certified**

Engineered Rubber Curb Specifications

Specifications:

RF-RKSH18C

- 18"W x 24"L x 2-1/4"H
- Additional center modules can be added to create any length

RF-RKSH18E

- 18"W x 24"L x 2-1/4"H

RF-RKSH36C

- 36"W x 24"L x 2-1/4"H
- Additional center modules can be added to create any length

RF-RKSH36E

- 36"W x 24"L x 2-1/4"H

Models:

RF-RKSH18C

- Mini Speed Hump Center Module

RF-RKSH18E

- Mini Speed Hump End Module

RF-RKSH36E

- Speed Hump End Module

RF-RKSH18C

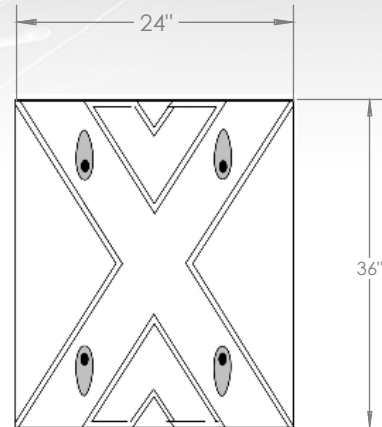

- Speed Hump Center Module

Hardware:

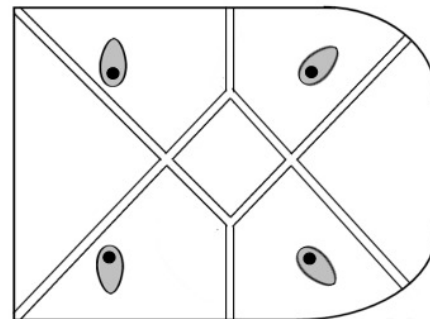

RF-RKSH18 /36HWK

- 3/8" x 5" Lag bolts
- 3/8" x 1" Washers
- Plastic Anchors
- Dog bone connectors
- Adhesive
